DATE............

Activity 14: Create a text file "My file.txt" in python and ask the user to write separate 3 lines with three input statement from the user.

```
# open the file in write mode
with open("My file.txt", "w") as file:
# Ask the user to input three lines
for i in range(3):
        line = input(f"Enter line {i+1}:")
        file.write(line + "\n")
print("Three lines have been written to Myfile.txt")
```

```
Enter line 1 : hello world!
Enter line 2 : this is a python file
Enter line 3 : end of file
Three lines have been written to MyFile.txt
```

```
hello world!
this is a python file
end of file
|
```
